## Scooter

This exceptionally popular sit on kayak features an exquisite blend of exploring, surfing and all round fun. True stability and user friendly handling mean you need look no further for a versatile kayak to suit fun seekers and families at the beach, lake or river. Paddlers of all abilities benefit from a

smooth and predictable ride thanks to the ingenious hull design and even volume distribution. More adventurous paddlers will appreciate the defined rail for carving turns on waves. Off the water the Scooter is manageable and easy to car-top thanks to our unique mould-in handling features.

### Specifications :

Length: 295cm

Width: 75cm

Weight: 20kg

Water Type: Lake, Coast, Estuary, Touring River.

User Guide: Beginner - Advanced

Type: Recreational Sit On Kayak

Max Load: 150kg

## Scooter Gemini

This extremely popular, user friendly tandem is perfect for inland or coast. Excellent stability allows you to cruise with confidence and enjoy the scenery whatever your experience. Relaxing in the comfortable, self bailing seats you will appreciate the Scooter Gemini's fun and forgiving

temperament. The smooth, predictable ride and exceptional directional stability comes without compromising manoeuvrability. Children can be accommodated with an adult in the specially designed seat area until they are old enough to get afloat alone. A third seat in the centre of the cockpit area is ideal for solo paddling or a passenger. Off the water the Scooter Gemini is manageable and easy to car-top thanks to our unique mould-in handling features.

### Specifications :

Length: 375cm

Width: 80cm

Weight: 28kg

Water Type: Lake, Coast, Estuary, Touring River.

User Guide: Beginner - Advanced

Type: Tandem Recreational Sit On Kayak

Max Load: 200kg

## Macao Paddles

This asymmetric touring paddle is made using glass fibre reinforced polypropylene blades and a high grade alloy shaft giving lasting performance and a reliable construction. To give you an enjoyable and relaxing paddle on longer trips the dynamic blade shape reduces fatigue with even pull on each stroke.

### Specifications :

Shaft : High grade anodised alloy with indexed hand grips  
Blade : Glass fibre reinforced polypropylene
